

25 MARCH 2025

RAPHELA JUNIOR SCHOOL

NURTURE EXCELLENCE FOR GREATNESS

Message from the Administration.

Dear Parents/Guardians,

DID YOU KNOW?

Our vision is to be a value-based school providing a safe, pleasant, functional environment conducive to the learning and development of the intellectual, spiritual, physical, self-esteem, and emotional capacities of every child.

We extend our warmest greetings to you and thank God for bringing us safely through the past two weeks. As we embrace a new week filled with opportunities, we remain committed to working together to nurture, guide, and shape our children into confident, responsible learners.

We sincerely appreciate your unwavering support, especially as we have engaged in several academic and co-curricular activities. Your involvement has been invaluable in enriching the learning experiences of our children. Over the past weeks, we have continued reinforcing Habit 2: Begin with the End in Mind—teaching our children the importance of setting goals, having a vision, and making thoughtful decisions. We encourage you to echo this lesson at home, instilling a strong sense of purpose and responsibility in them.

Additionally, we extend our heartfelt gratitude for your presence and engagement during the Curriculum Meetings. Your dedication to your children's education reaffirms the strong partnership we share.

As we move forward, we remain steadfast in providing a holistic learning environment that nurtures our children academically, socially, and morally. Together, we are shaping well-rounded children who will embrace the future with confidence. Thank you for your continued support!

Curriculum Meetings – A Fruitful Engagement

Our Curriculum Meetings were highly interactive and insightful, allowing parents and teachers to align on key academic goals and expectations. We are more than positive that the discussions will translate into meaningful support for our children at home, reinforcing their learning journey and ensuring that we are sharpening the sword on both sides—both at school and at home.

A key highlight of these meetings was the willingness of parents to volunteer as class representatives. We are truly grateful for this spirit of involvement, as it strengthens our school community and enhances collaboration between parents and teachers. As we move forward, we encourage you to continue engaging with your children's schoolwork and providing the necessary guidance to ensure their success.

Arrival of our esteemed parents.

our classes start with warm up sessions, and so do our meetings.

Our parents attentively listening to the presentations.

Our Charity Visit – A Lesson in Kindness

Our Primary Six learners had the privilege of representing the school at Missionaries of the Poor Bethlehem Home, where they shared moments of love, generosity, and reflection.

This experience was deeply moving, not only for those we visited but also for our children, who gained a greater appreciation for kindness, gratitude, and giving back to society.

We extend our heartfelt appreciation to all parents who contributed to this noble cause. Your generosity and willingness to support the less fortunate truly made a difference.

Club Corner – the Science Club

This week, we shine a spotlight on the Science Club, where young scientists are busy exploring and applying their knowledge in creative ways.

Our Science Club members have been hands-on, setting up their nursery beds, preparing the soil, and planting their seeds in anticipation of the rainy season. The goal is to cultivate a thriving garden, reinforcing important lessons about responsibility, patience, and environmental conservation.

This practical approach to learning continues to fuel curiosity and a love for science among our children.

Our children enjoyed the preparation as they learnt from their teachers..

Important Updates & Corrections

We would like to bring to your attention an important update regarding the Sports Day date. In our previous newsletter, we had initially scheduled Sports Day for 4th April. ***However, please note that the correct date is now Friday, 25th April 2025.***

Additionally, the end-of-term closure has been confirmed for Tuesday, 30th April 2025. Kindly mark your calendars accordingly.

Looking Ahead....

As we journey through the remaining weeks of the term, we encourage you to continue supporting our children academically, emotionally, and socially. Let us keep working together to ensure they thrive in all areas.

Thank you for always standing with us. May you have a fruitful and blessed week ahead.
