MESSAGE FROM THE ADMINISTRATION

HABIT OF THE WEEK

BE PROACTIVE

Dear Parents,

Warm greetings from the administration at Raphela Junior School!

We want to extend our sincerest appreciation for your continuous support and cooperation. Your partnership with us is fundamental to our shared mission of nurturing and educating our children.

During this week, our focus has been on teaching the children about the first habit from "The 7 Habits of Happy Kids" by Sean Covey: Be proactive; I am in charge. Through engaging activities and close discussions, our children have been learning about the importance of taking initiative, practicing patience, showing perseverance, and collaborating with others.

We kindly request that our dear parents reinforce these valuable lessons at home, as consistency between school and home environments greatly benefits our children's development.

We wish you all a restful and enjoyable weekend!

LEADERS OF THE WEEK

At Raphela Junior School, fostering leadership skills is at the core of our educational philosophy. We believe that every child is a leader, and we take pride in nurturing and unlocking their leadership potential.

Through our transformative Leader in Me Programme, we instill core leadership values in our children and provide them with rotating opportunities to lead. This week, we celebrate the achievements of our exemplary leaders from Primary Two Kites.

KABYOGAMU M S
Prayer Leader

SSEMAMBO Z. S
Health Supervisor

MWESIGWA B
Routine Supervisor

KALUNGI JOAN
Office Coordinator

MUGUMA O. E
Time Manager

IMPORTANT TO NOTE

CATECHISM CLASSES

Dear parents, we are pleased to inform you that registration for the catechism classes for the Catholic children is ongoing for the year 2024. For the interested parents, kindly register with the school office and carry along the child's baptism card. This will enable us to make the necessary arrangements for our children.

THE ABACUS AND MENTAL MATH PROGRAM

The Abacus and Mental Math training programme is meticulously designed to enhance children's arithmetic skills, focus, memory, and overall cognitive development. It offers a unique opportunity for our children to sharpen their mathematical abilities while also nurturing essential cognitive functions. This scientifically developed course offers a highly structured programme that cultivates critical thinking and enables our children to utilise all functions of both the left and right brains.

Registration and payment for the programme are now open at the school administrative office.
